GREAT CAPACITY: up to 360 t/h!!!
Rolls up 10-foot bags up to 150 m long.

- **Simple to adjust:** It is very easy to swing into transport or working position.
- **Modern design:** allows an easier unloading operation and minimizes the risk of bag damage.
- **Bottom Gearbox and grain pusher:** simplify the augers' performance and help clean up the end of every bag.
- **Hydrostatic movement:** The machine moves automatically as the bag is wound up by the roller. The speed of movement can be adjusted.
- **Reinforced chassis.**
- **Independent hydraulic controls.**
- **Adjustable knife:** to cut the bag at the ideal angle.
- **Axles and tires:** Reinforced axle system to accommodate the extra weight when unloading in wet and soft ground conditions. High flotation tires (400/60 - 15.5).
- **Electrostatic polyurethane paint**
- **Led running lights** (optional).
- **Movable spout** (optional).
